Urban Vision is bringing forward plans to redevelop the Civic Centre Car Park, locally known as the Lobster Pot, into a new, purpose-built care home with 162 specialist suites for older people, including those with dementia and complex needs.

Key features of the proposals include:

A modern care facility designed based on gold-standard dementia principles.

Architecture that complements the Civic Centre and local heritage, along with secure, landscaped gardens and sensory outdoor spaces for residents.

High quality facilities including a cafe, hair salon, residents' lounge, and cinema room, which will support care home residents to maintain a routine and provide meaningful outings to support their wellbeing.

35 car parking spaces, including accessible bays and EV charging points.

The proposals aim to meet the growing demand for specialist care in the London Borough of Hillingdon.

We are keen to understand the views of the local community ahead of submitting a planning application to Hillingdon Council.
